

Buenos Aires, April 2019

QUALITY POLICY

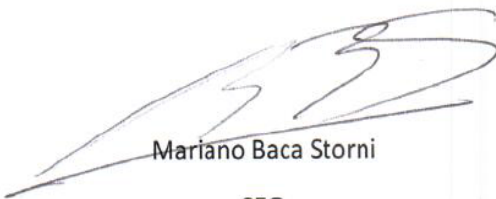

We are an innovative technology company that offers high-tech solutions at an international level.

We stand out for understanding the specific needs of our clients and creating innovative solutions that enhance their productivity and efficiency. We boost the users' experience by creating intuitive and user-friendly applications, thus saving time and costs.

Our goal is to ensure permanent growth, specialization and business-oriented services to become a leading company in our area.

We have developed a Quality Management System based on ISO rule No. 9001:2015 and on the implementation guide ISO-IEC 90003:2018, in order to improve our processes in a continuous and strategic way.

We are committed to achieve the highest possible standards to meet our stakeholders' needs, complying with every applicable requirement. By doing so, we continue evolving and strengthening our working methods.

Mariano Baca Storni
